

Salma Sherif

Data Engineer

01060951608 | salmakhalifa06991@gmail.com | linkedin.com/salma-sherif | github.com/salmaakhalifa | New Cairo

SUMMARY

Computer Science graduate with hands-on experience in **data engineering, ETL/ELT pipelines, and data integration** across relational and distributed systems. Completed NTI Big Data Engineering Scholarship and Corelia internship, building automated pipelines using **Python, Apache Airflow, and PostgreSQL**. Skilled in **SQL, Python, and Git**, with experience handling data formats such as CSV, JSON, and Parquet. Familiar with **BI tools (Power BI, Tableau, Streamlit)** and big data technologies including **Kafka, Spark, Sqoop, and Flume**. Strong analytical and problem-solving skills with a focus on delivering data-driven solutions.

EXPERIENCE

Data Engineering Intern

02/2026 – 03/2026

- Built an automated **ETL pipeline** for gold price scraping, cleaning, and storage using Python and Apache Airflow (Astro) with Docker.
- Designed **PostgreSQL schema** and performed data querying/transformation using SQL and Pandas across CSV/JSON formats.
- Conducted **EDA and time-series forecasting (ARIMA, SARIMA)** with evaluation using RMSE and MAE.
- Developed an interactive **Streamlit + Plotly dashboard** for real-time analytics and visualization.
- Managed codebase using **Git/GitHub** throughout the project lifecycle.

1-Month Internship |
Corelia

Data Analysis Intern

03/2026 – 04/2026

Codveda Technologies

Remote

- Performed data cleaning, transformation, and exploratory analysis on structured datasets in CSV and JSON formats.
- Developed data visualizations and analytical reports to support business decision-making.
- Applied Python (Pandas, NumPy) for data wrangling and statistical analysis tasks.

PROJECTS

Egyptian tech job market Pipeline

End-to-end **data engineering pipeline** using Python, Wuzzuf scraping, Kafka, Airflow, and PostgreSQL to collect, stream, and analyze job market data. Built ETL workflows and BI dashboards (Looker Studio / IBM Cognos) to visualize trends, skills, and salaries.

Tech: Python, Kafka, Airflow, PostgreSQL, SQL, BeautifulSoup, BI Tools

Gold Price Scraping and Forecasting Model

02/2026 – 03/2026

Built a data pipeline for **gold price scraping, processing, and forecasting** using Airflow and Docker. Designed PostgreSQL schema, implemented ETL workflows, and applied **ARIMA/SARIMA models** with RMSE/MAE evaluation. Developed Streamlit dashboard for visualization.

Internship Project |
Corelia

Tech: Python, Airflow, Docker, PostgreSQL, statsmodels, Streamlit, Plotly

Clinic Data Integration & Analytics Dashboard

Developed a healthcare **data integration system** with ETL pipelines, data modeling, and SQL-based processing. Built Power BI dashboards for operational and clinical insights.

Tech: Python, SQL, Power BI

Velora: SkinCare Diagnosis & E-commerce Platform Graduation Project(A+)

- Built 25+ REST APIs with ML skin diagnosis and Stripe payments
- Applied Repository & Unit of Work patterns for scalable backend
- Tech: ASP.NET  Core, EF Core, SQL Server, JWT, Stripe API

EDUCATION

Bachelor of computer science

2021 – 2025

Faculty of Computers & Artificial Intelligence – Helwan University

GPA 3.5/4 (Excellent With Honors)

Big Data Engineering, HireReadyProgram

10/2025 – 01/2026

National Telecommunication Institute (NTI)

- Hands-on labs: Linux, Python, SQL, Hadoop/HDFS, Apache Spark, ETL pipelines, data integration tools.
- Applied ML, Power BI/Tableau dashboards, AWS fundamentals (EC2, IAM, S3).

SKILLS

Technical Skills :

- **Languages & Frameworks:** Python, SQL, C# (ASP.NET Core, EF Core)
- **Data Formats:** CSV, JSON, Parquet, Avro
- **Databases :**Sql Server ,**PostgreSQL** ,HBase (NoSQL) ,ClickHouse
- **ETL & Data integration:** **Apache Airflow (Astro)**,Apache Sqoop ,Apache Flume,Docker
- **Big Data:** Hadoop,HDFS,Apache Hive,Apache **Spark** ,Apache Flink,Apache Kafka ,Apache Zookeeper ,Elasticsearch
- **BI & Visualization :** Pandas, **Streamlit**, **Plotly**, Tableau, Power BI
- **Machine Learning:** Regression, Classification,Clustering,ANN,Scikit-learn, statsmodels
- **Cloud:** AWS (EC2, IAM, VPC, S3), CloudFormation
- **Version Control & Tools:** Git/GitHub, Postman, Jupyter Notebook,Swagger

Soft Skills:

- Team Collaboration, Problem Solving, Communication, Adaptability, Presentation Skills
